Route 27 from Ellicott City to Clarksville.**

TERMS

Terms: Cash with order. Prices F. O. B. Ellicott City, Md. or Nursery.

Guarantee: We guarantee all stock to be strictly first class and true to name and will upon proper proof refund the purchase price, or replace any stock which proves otherwise. It is understood and agreed that we will not be held responsible for any greater sum than the cost of the stock, should any prove untrue. We strive to avoid mistakes and believe that we are as exact as any in the business.

Telegraph or telephone us at Ellicott City, Md. 87-F-23.

References: Central Bank, Clarksville, Md.

We cannot guarantee stock to live. We guarantee all stock we sell strictly first-class and true-to-name, dug and packed properly for shipment; our prices compete with other reliable nurserymen. We do not charge a price for a plant or shrub, that should it die, we could replace it and then still make a profit. Stock often perishes when it is not properly planted and cultivated, also the severe cold and heavy storms of Winter and droughts of Spring and Summer, which is liable to occur, will sometimes cause the best of stock to perish, which is no fault of ours.

It is impossible for us to guarantee trees and plants to live, as this altogether depends on weather conditions and how stock is planted and cared for after planting. The conditions which prevail after stock leaves our hands are such that it is just as impractical for a nurseryman to guarantee a tree or plant to live as it would be for your best neighbor to sell you a horse or other live stock and guarantee it to live. We can only guarantee to send you good stock up to grade represented, full of life and true to name.

T E N O A K S N U R S E R Y

Shipments: After we deliver stock to the forwarding companies and receive their receipt for the shipment in good condition, our responsibility ends. If stock is damaged while in transit, have agent at point of delivery to note such damage on freight or express bill, and present your claim for damage with said agent against forwarding companies. Keep copies of all papers. If adjustment is not made within a reasonable time take the matter up with us, we will endeavor to help you get a prompt adjustment.

Substitution: When sold out of a variety of trees or plants we frankly say so and when you allow us to substitute we will send a variety similar to the one ordered, as good or better; as we know the many varieties our substitution, if any, will be of advantage. Late in the season we are sometimes sold out of some varieties of stock, thus when sending your order, it is to your advantage to say whether we may substitute or not, that we may get the order off promptly, before the season is too far advanced for successful planting. If you do not wish us to exercise this right please mark your order sheet plainly **no substitution**.

Claims, if any, must be made within five days from receipt of stock. We cannot become responsible for misfortune of stock caused by droughts, floods, frosts, insects, fire, etc., and by stock not being taken from the express office for several days after its arrival.

Notice of shipment: Notice will be sent you when your order has been shipped.

GENERAL LIST OF

Hardy Herbaceous and Alpine Plants

The following plants are two year old plants dug from the field except where the plant is hard to transplant then they will come from pots carried in cold frames. Plants marked with an (*) are suitable for the rock garden. After each plant you will find the color, the month it blooms, the height and the best location to plant it, sun, shade, etc.

	Each

The price after each Plant is the price for one plant of that variety. If you get ten plants of one variety there is quite a saving. For example take the last item—Wallflower, the price is 25c each, if you get **Ten Wallflowers** the price will be \$2.00 but if you get seven plants the price would be \$1.75. We are glad to sell in quantities and can afford to sell much cheaper by doing so.

TEA, HYBRID TEA OR EVERBLOOMING ROSES

Following you will find all the very best varieties that do well in this locality; they have been tried out here for three years and all have gone through the winter in fine shape with the general protection. These are all field grown 2-year-old plants budded on plenty of roots and you will not find better roses anywhere. These plants can be moved until foliage starts, from then on we will have all the same varieties in pots which can be moved and planted any time.

75c each—10 for \$7.00 except where noted.

Betty Uprichard. Salmon pink stained with copper pink.

Columbia. Vivid pink pointed buds.

Dame Edith Helen. A new very large bright pink rose; one of the best.....\$1.00

Double White Killarney. Pure white.

Duchess of Wellington. Large pointed yellow buds.

Eldorado. Solid golden yellow buds.

Lady Hillington. Apricot-yellow. Fine.

Lady Ursula. A well known pale pink.

Los Angeles. Salmon pink. Shaded deep rose and gold.

Mme. Butterfly. Bright light pink, shaded with gold.

Mme. Edouard Herriot. Orange pink to salmon.

Mrs. Aaron Ward. Beautiful Indian yellow.

Mrs. Henry Morse. Bright pink to a salmon....\$1.00

Radiance. Brilliant pink; the old standby.

Red Radiance. Rosy red form of the above.

Sunburst. Rich yellow shaded orange.

Talisman. The new novelty, Orange red changing yellow and copper.....\$1.50

Templar. Deep red, very fine.....\$1.00

Willowmere. Brilliant pink suffused with a golden light

Killarney. The well known bright pink.

We have all the above roses Climbing, Polyantha and Hybrid Teas in 6 in. pots carried in cold frames so they had an early start and can be planted at any time after heavy freezing is over up to and on into summer without giving the plant the least bit of a setback.

These roses will be.....\$1.00 each or 10 for \$9.00 except the following:

Jacotte	\$1.25	Mrs. Henry Morse...	\$1.25
Gruse an Aachen....	\$1.25	Talisman	\$1.50
Dame Edith Helen..	\$1.25	Templar	\$1.25
